October 2020

Dear Parents/Carers

We are offering pupils an opportunity to supplement their learning in school by purchasing the KS3 Science revision guide. It is a book that encompasses the topics that are met in Year 9 Science across the three disciplines of Physics, Chemistry and Biology. The aim of offering this book is to provide support for pupils so they can independently revise for tests, understand more difficult concepts and help with homework. It can also be used to help catch up on missed topics due to absences. The pupils can become more independent in their learning by using the book. We highly recommend that this book is purchased to support your child's Science lessons.

The revision guide matches the Science content we teach at the school. It is a book you can purchase individually in the shops for £4.95. By purchasing the KS3 Science revision guide through St Mary's High School the cost is only £3.00 payable on ParentPay.

Many thanks in advance for your support and we hope your child enjoys success in Science in the coming years.

Yours faithfully

Dr A Patel
Key Stage 3 Co-ordinator
